目標

You can do tasting sales and recommend products according to customers' needs.

会話

Clerk Welcome. We are giving out food samples of our new product.

Customer What is this new product?

Clerk It's the new fried noodle sandwich. Would you like to try it?

Customer Oh really. Yeah, it's delicious.

Clerk It's good for breakfast and snack.

Customer I'll take two, then.

Clerk Thank you very much.

Clerk Hello Sir/Ma'am, are you looking for something?

Customer Yeah, there are so many types of bread and I can't decide. Do you have any recommendation?

Clerk This "melonpan" right here is our recommendation. It is our most popular sweet bun.

Customer I don't really like sweet things.

Clerk Then how about this "croquette sandwich"? It has been renewed the other day, and has been well received. It's also good when you heat it.

Customer I'll take this then.

Clerk Thank you very much.
